

Cummings, Keegan & Co., P.L.L.P.
Certified Public Accountants and Business Advisors

MaryGen Hoehn, CPA, MBT Manager

“It’s rewarding to take a challenging topic like taxation and help clients determine their best options related to their financial goals.”

As a member of the tax team, MaryGen provides tax advisory services for a variety of clients, including corporations and individuals with complex tax situations, trusts, and estates. Her background in accounting, finance, and insurance enables her to understand the intricacies of tax strategies, including the new changes with tax legislation.

She has a remarkable ability to explain complex tax regulations in terms everyone can understand. With a Masters in Business Taxation (MBT), MaryGen brings a unique value to the tax planning process. This education increases her ability to interpret changing regulations after understanding the history of, reasons for, and future impact of changes in tax legislation.

Outside of work, MaryGen spends time with her husband and two very active sons. She volunteers weekly at their school and assists with their sports teams. As a ‘hockey mom’, she knows how to build personal connections, which is important when she’s helping clients make long-term decisions for their financial future. When she takes time for herself, MaryGen enjoys gardening, golf, and crafts.
